Dear SEGT 2019 Conference Participants,

Thanks for your supports.

1. Invitation Letter and Acceptance Notice

- All the Invitation Letter and Acceptance Notice have been emailed to the authors who have submitted their Online Abstract before 30/SEP/2019 except those pending revision.

2. Camera-Ready Abstract submission

- The Camera-Ready Abstract submission deadline is 15/OCT/2019. Please prepare and submit the Camera-Ready Abstract by uploading the files (both .doc and .pdf) in the online SEGT 2019 CMT submission system before the deadline. All the Camera-Ready Abstracts will be included in the SEGT 2019 Conference Programme Book and USB Conference e-Proceedings. Please use the same submission number as the one you submitted the online abstract. The template for the Camera-Ready Abstract can be found in the SEGT 2019 Official Website. Login to SEGT 2019 CMT Submission System > Author Console: Column 'Actions' > Create Camera Ready Submission. Please save your files with the standard filename, i.e. SEGT-CR#(3-digit submission number), e.g. SEGT-CR#036.
- For authors who prefer to have the 'ACKNOWLEDGEMENT' in the Camera-Ready Abstract, it can be included after the 'KEYWORDS'

3. Full Paper Submission

- Full Paper submission is optional (registered authors with their abstract accepted are allowed to present (oral/poster) in the SEGT 2019 Conference without full paper submission).
- 4-6 pages Full Paper is required for review and evaluation (for publication options in SEGT 2019 USB Conference e-Proceedings with ISBN, IOP-EES Conference Proceedings, recommendation to supporting journals, Best Paper Award selection).
- The Full Paper Template (Microsoft Word A4 template) can be downloaded at

<https://www.isegt.org/submission/>. Please upload the Full Paper as follow: Login to SEGT 2019 CMT Submission System > Author Console: Column 'Actions' > Upload Supplementary Material (use file name: SEGT-FP#{3-digit submission number}), e.g. SEGT-FP#036.

- For authors that prefer to submit Full Paper (optional), please include the completed "Publication Options Form" as the first page of the submitted Full Paper. Please select the correct publication option [(a), (b), (c)] that matches your registration package.

Full Paper Publication Option (a):
SEGT 2019 USB Conference Proceedings with ISBN

- Full Paper Submission Deadline: 31/OCT/2019
- No additional fee.
- Good papers selected through the review process of the SEGT 2019 scientific committee will be recommended for publication in supporting journals (through the journal review process).
- Best Paper Awards will be presented according to conference tracks.

Full Paper Publication Option (b):
SEGT 2019 IOP-EES Conference Proceedings

- Full Paper Submission Deadline: 25/NOV/2019
- Online publication in the Scopus-indexed IOP-EES Conference Proceedings (additional article processing charges).
- Good papers selected through the review process of the SEGT 2019 scientific committee will be recommended for publication in supporting journals (through the journal review process).
- Best Paper Awards will be presented according to conference tracks.

Full Paper Publication Option (c):
Drop both (a) & (b). Just for consideration to be recommended to the supporting Journals

- Full Paper Submission Deadline: 25/NOV/2019
- Good papers selected through the review process of the SEGT 2019 scientific committee will be recommended for publication in supporting journals (through the journal review process).

Dear Authors,

The reviewers have commented on your paper. They indicated that it is not acceptable for publication in its present form.

Please carefully address the issues raised in the comments and resubmit your manuscript.

If you are submitting a revised manuscript, please also:

- a) outline each change made (point by point) as raised in the reviewer comments
- AND/OR
- b) provide a suitable rebuttal to each reviewer comment not addressed.

1. The objective of the study is not clear. The author should state the objectives of the current study in the last paragraph in the introduction section.
2. The resolution of the figures are too low and wording is too small.
3.28.20C. Spacing should be present between dimension and unit.
4. It would be better to write the conclusion in paragraph form.
5. The results should be further elaborated to show how they could be used for the real applications.

When submitting your revised paper, we ask that you include the following items:

1. Manuscript and Figure Source Files (mandatory)

We cannot accommodate PDF manuscript files for production purposes. We also ask that when submitting your revision you follow the IOP journal formatting guidelines. Figures and tables may be embedded within the source file for the submission as long as they are of sufficient resolution for Production. Refer to the Guide for Authors for additional information as in <https://www.isegt.org/submission>.

2. Similarity check (mandatory)

- (i) Overall similarity index is 20% and below
- (ii) Matching of individual sources listed must be less than 1% each.
- (iii) Matching texts in continuous block must not exceed 8 words.

Items (i) to (ii) shall exclude quotes, bibliography and text matches which are less than 8 words.

3. Rebuttal reviewers comments (mandatory)

The requirements for submission 1) to 7) are as follows;

1) Submit the original manuscript showing clearly all textual changes using track changes. Just highlighting textual changes in yellow (or other colour) is not acceptable. This includes all edits related to reviewer(s) comments and the Editorial points.

2) Submit the clean revised version of the paper.

3) Provide a 'Response to reviewers document' with a point by point response to each comment from the reviewers. Carefully and fully address the issues raised and refer to each comment from the reviewers clearly in the revised/edited/changed text in the marked-up copy of the original manuscript (e.g. line number X to Y on page X in the marked-up manuscript) in this response.

4) Read the 'Guide for Authors' at <https://www.isegt.org/submission>. very carefully. It is the sole responsibility of the author(s) to ensure that their article is correct and meets IOP EES style and format fully in terms of contents and layout (e.g. authorship, order of authorship, addresses, article structure, keywords, abbreviations, nomenclature, captions on figures and tables, acknowledgement of those that helped and or funded the research including datasets, references).

5) Ensure that permission is attained for all copyrighted graphics, images, tables and/or figures. Note that for any figures, graphics or images published elsewhere by the author or others, the author(s) must arrange permission and this must be clearly stated in the 'Acknowledgements' section at the end of the article. If the author(s) cannot arrange permission, then the graphics, images, tables and or figure must be removed from the manuscript.

6) Check the English carefully for grammar, spelling and syntax. This is an English language proceeding and being a non-native English speaker is not a valid reason/excuse for a poorly written manuscript. It is also not the role of reviewer(s) or indeed the publishing team to proof read the English, grammar and or syntax of a manuscript. The function of the reviewer(s) and an editor is to examine scope, robustness and technical content. Proof reading is the sole responsibility of the author(s), for example, articles are written in the first or third person and the use of "I," "we" or "they" should be avoided.

Note if an article is revised and resubmitted with poor English, grammar and or syntax it will be rejected.

7) Check your manuscript for intentional or unintentional plagiarism of your own work or work by others elsewhere. Each article should present some novelty and new result, and it is the Editor's opinion that this should be written in the author(s) own words. Similarity requirement as follow:

- (i) Overall similarity index is 20% and below
- (ii) Matching of individual sources listed must be less than 1% each.
- (iii) Matching texts in continuous block must not exceed 8 words.

Items (i) to (ii) shall exclude quotes, bibliography and text matches which are less than 8 words.

Submit the revised manuscript, the marked-up original manuscript and the 'Response to reviewers and Editors document' as follows;

1. Go to: https://docs.google.com/forms/d/e/1FAIpQLSdiUQYdym76IQS8H-U6A4aMM5pO20V0ErI7RoB4VE9QOqea-A/viewform?usp=sf_link

2. Enter your E-mail address, author name, paper title, paper number.

3. Name the file according to your paper number.

4. Submit the following documents before 20 January 2020.

i. Full paper clean copy (Microsoft word format).

ii. Full paper revised copy with track change (Microsoft word)

iii. Similarity check report

iv. Rebuttal reviewers report.

5. After uploaded all file, click submit.

For those country do not have access to Google form you can submit it to segconference@gmail.com.

Finally, I look forward to receiving your revised submission.

Yours sincerely,

Wentong Chong
