Dear Tri Lestari,

It is our pleasure to inform you that your abstract 54-276 entitled Growth Response and Yield of Sorghum with NPK Application and Cassava Bark Compost in Ultisol Land for International Conference on Sustainable Environment, Agriculture and Tourism (ICOSEAT 2022) has been ACCEPTED at the conference and possible publication in Journal/Proceeding.

We would like to inform you that due to a technical problem, ICOSEAT proceeding will not be able to be published in IOP Conference Series: Earth and Environmental Science (EES), as mentioned previously on our website and flyer. As an alternative, we contacted Atlantis press, and they accepted our proposal to publish ICOSEAT proceeding in the series of Advances in Biological Sciences Research (ABSR). One month after the proceeding is available (online), the publisher will submit the proceeding to Web of Science (WoS): Conference Proceedings Citation Index (CPCI). We do hope that WoS CPCI can index the proceeding. Please accept our sincere apologies for the inconvenience caused.

We also encourage you to submit your full paper with the new template of Atlantis Press (The template can be found in the Download page of ICOSEAT's website or here: <http://ugm.id/PaperTemplateICOSEAT>) through our system at <http://epaper.uasc.ugm.ac.id/> as scheduled. Please note that there will be no presentation without full paper submission.

Please kindly confirm your attendance by 30th June 2022 through this link <http://ugm.id/ConfAttICOSEAT>. For virtual oral presentation, authors are requested to upload the paper presentation video by the following link <http://ugm.id/VideoUploadICOSEAT> (max 100 MB for each file, with maximum duration
