Mine Closure 2020 abstracts due 8 November 2019

The annual International Conference on Mine Closure is the platform event for the global mining industry. It provides opportunities to network and explore the latest mine closure methodologies and technique breakthroughs.

This event provides a forum for attendees from a variety of disciplines to exchange ideas about their work and to learn about new developments in the field of mine closure.

Mine Closure 2020 will provide attendees with an excellent opportunity to discover mineral-rich Mongolia and expand your experience with the latest mine closure planning, technology and processes delivered by industry experts from around the world.

Abstracts are due 8 November 2019. For more information, visit <http://mineclosure2020.com> or email anarmaa.sh@gmc.mn
mineclosure2020.com

Date: Tuesday, 15 October 2019 at 18:00 GMT+7

Dear Anarmaa Sharkhuu,

Thank you so much for the information.

I will be thinking seriously in participating the conference in your country.

And I am waiting for the coming website.

In my country, we are the academics, usually want to know whether the publication is indexed or not.

I do not know if the coming proceedings of this conference would be indexed or not. Although I do understand, most of the Mine Closure proceedings was not indexed. Just curious only.

Have a good day there,

Best regards,

Eddy

Dear Eddy Nurtjahya,

I have confirmed that the proceedings have been submitted to Scopus to be indexed but it is in the working progress at this point. I am not sure if the proceedings will be indexed by the time we publish it. I am sorry it is all the information I can provide at this point. If you want, I will try my best to inquire about the progress and see if the proceeding would be indexed by the time of being published.

Best regards,
Anarmaa

Thank you for submitting the abstract to Mine Closure 2020 in Mongolia. Your submission has been successfully submitted. We will shortly notify you about the decision regarding your abstract's acceptance status by 5th/December. If you have not received an e-mail notifying you of the status of your submission by that date, please contact anarmaa.sh@qmc.mn with your name and the title of your submission. Please make sure that your spam filter accepts messages from @qmc.mn. Meanwhile, you can send an email if you make changes to your abstract.

Thank you!

We look forward to seeing you in Ulaanbaatar, Mongolia.

Best regards,
Anarmaa.

Greetings,

The preparation of receiving draft papers has been made. Guidelines and other information are on the "Author's portal" section of the Mineclosure2020 webpage. The use of documents and paper guidelines on the "Author's portal" section is highly recommended in order to maintain consistent formats with submitting papers. The draft paper submission deadline is until the 20th of March. If you have any other questions, you can contact anarmaa.sh@qmc.mn. We are more than happy to assist with any issues and/or clarification on certain topics.

Sincerely,

Committee of MineClosure2020 International Conference.

Greetings,

This e-mail is a follow-up reminder of the draft paper submission deadline on the 5th of March.

First of all, we are happy to share that the Mine Closure Conference series proceedings will be indexed with Scopus.

As we notified you about the draft paper submission deadline five weeks ago, this is the last week to submit your manuscript. The reviewing process will require above-average time and effort from reviewers. Therefore we would appreciate a punctual submission.

If you have any questions, concerns, and/or requests, please contact me without hesitating.

Best regards,

Mine Closure 2020 International Conference; Delaying Notification

From: Anarmaa Sharkhuu (anarmaa.sh@qmc.mn)

To: anarmaa.sh@qmc.mn

Date: Monday, 6 April 2020 at 15:55 GMT+7

Greetings from Organizing Committee of Mine Closure 2020 International Conference,

Sincere thanks for your participation in Mine Closure 2020 International Conference.

We are all facing difficulties in committing and cooperating due to lockdowns and quarantines being mandated in many countries. From the moment our committee commenced the organizing operation of the Mine Closure 2020 International Conference, we strived to make the best out of our potential resources and hold this high-end international conference at the utmost quality. For the safety of our participants, the organizing committee has avidly monitored the progress of COVID 19 from many sources, including the projections of the World Health Organization. As all of you are now aware, the COVID 19 now became a pandemic. As such, the committee is consequently obliged to delay the conference by one year. Even both organizing and participating parties are trying their best endeavors, negligence of human health safety is morally and ethically unacceptable. We all sincerely appreciate your eagerness and participation. The conference will be held after this challenging time upon every one of us.

The organizing committee sincerely thanks for the timely submission of abstracts. Meanwhile, if you would like to make changes to your abstract, please update and send us again.

Thank you again for your patience and understanding. Every effort will be made to update you all on the progress of conference preparation and changes in the deadline.

--

These are unique circumstances, and it is a trying time for everyone. Thank you so much for your patience and understanding.

Sincerely,
Committee of MineClosure2020 International Conference.

Mine Closure 2021 - Draft paper submission notice

From: Anarmaa Sharkhuu (anarmaa.sh@qmc.mn)

Date: Tuesday, 26 January 2021 at 14:13 GMT+7

Dear authors of Mine Closure 2021 International Conference,

Greetings to you. This e-mail is a notice regarding the extension of the draft paper submission deadline.

The deadline on our official website is the 19th of February. Nevertheless, we extended the draft paper deadline, and it is the 5th of March, considering the new norm during the pandemic. In the meantime, we suggest you review your submission work and edit the necessary parts, which if you have.

The process for the technical program is planned to be the same as the last year:

- More than 2 anonymous reviewers will review papers.
- You will have time to respond, edit, and resubmit your paper by the 28th of May.
- The Program Committee will work with the session chairs to finalize the program after the registration for authors.

Mine Closure conference in the process of transforming its format to a semi-virtual conference in August 2021 to improve its accessibility to our colleagues around the world, and as the health and safety of our attendees is still our highest priority. We are currently sourcing an online platform that will allow for a mix of in-person and recorded presentations, Q&A, online exhibits, virtual rooms, and more. With this new development, we consider either live or pre-recorded presentations for those who cannot attend in person. In the meantime, we also continue working with our local event managers and businesses to host the Mine Closure 2021 conference in a face-to-face format, and working on health and safety.

Sincerely,

The committee of Mine Closure 2021 International Conference.

To: anarmaa.sh@qmc.mn

Date: Saturday, 27 February 2021 at 17:00 GMT+7

Dear Sir,

I should say thank you and grateful for the deadline extension to March 5.

I have been working with the manuscript these weeks, and I am afraid the draft will be unsatisfied by March 5. I wonder if I may ask longer time, and I think by March 19, I will submit the manuscript.

Thank you very much.

Best regards,

Eddy Nurtjahya

Dear Sir,

I should say thank you and grateful for the deadline extension to March 5.

I have been working with the manuscript these weeks, and I am afraid the draft will be unsatisfied by March 5. I wonder if I may ask longer time, and I think by March 19, I will submit the manuscript.

Thank you very much.
Best regards,

Eddy Nurtjahya

Dear authors of Mine Closure 2021 International Conference,

Greetings to you. This e-mail is a notice regarding the extension of the draft paper submission deadline.

The deadline on our official website is the 19th of February. Nevertheless, we extended the draft paper deadline, and it is the 5th of March, considering the new norm during the pandemic. In the meantime, we suggest you review your submission work and edit the necessary parts, which if you have.

The process for the technical program is planned to be the same as the last year:

- More than 2 anonymous reviewers will review papers.
- You will have time to respond, edit, and resubmit your paper by the 28th of May.
- The Program Committee will work with the session chairs to finalize the program after the registration for authors.

Mine Closure conference in the process of transforming its format to a semi-virtual conference in August 2021 to improve its accessibility to our colleagues around the world, and as the health and safety of our attendees is still our highest priority. We are currently sourcing an online platform that will allow for a mix of in-person and recorded presentations, Q&A, online exhibits, virtual rooms, and more. With this new development, we consider either live or pre-recorded presentations for those who cannot attend in person. In the meantime, we also continue working with our local event managers and

businesses to host the Mine Closure 2021 conference in a face-to-face format, and working on health and safety.

Sincerely,

The committee of Mine Closure 2021 International Conference.

paper revision - minor

From: anarmaa.sh@gmc.mn

To: eddy_nurtjahya@yahoo.com

Date: Sunday, 9 May 2021 at 00:02 GMT+7

Dear Eddy Nurtjahya,

Thank you for submitting your paper "**Selection criteria for plant species grown on tin-mined soil in Bangka Island, Indonesia**" to the Mine Closure 2021: Proceedings of the 14th International Conference. I am pleased to say that your paper has been favorably received, and publication with **minor** revision is recommended by the editorial team and a group of expert reviewers. Therefore, we would like to invite you to revise the paper and resubmit it for further review.

Reviewers and editors have noted that your paper addresses the following key elements:

- is of benefit and interest to the conference delegates and the wider mining community
- of technical contents are correct and acceptable quality for publication.

Nevertheless, there were some concerns raised, and the following revisions have been recommended. Please see the attached reviewer comments for further details about necessary revisions. Please consider the reviews to see if the revision would be feasible.

- English language readability needs to improve in some key places (suggestions have been made in the accompanying Word file).
- An improvement needs to be made to the concluding statement. The paper shows that many leaf and root traits are not particularly good indicators of successful reclamation species. Yet, the way the concluding statement is written, the author appears to state future studies should emphasise more work on these (poor) indicators. I don't think the author means that, but the ambiguity needs to be removed.
-

I hope you will find the comments to be of use to you, and I am looking forward to receiving your revision. We ask that you submit the revised version of your manuscript by emailing to anarmaa.sh@gmc.mn address. **You have two weeks to respond to this revise and resubmit request ending on the 17th of May.**

To facilitate a further review, use track changes in revising. Kindly note that your re-submission will not be accepted without the track-changed paper. Should you wish to resubmit, you should explain how and where (i.e. by giving line numbers of the paper or using numbered items in the body of an email) each point of the reviewers' comments has been incorporated. Please note, your revised paper should be accompanied by a summary of your responses to the reviewers' comments either in the body of the response email. If necessary, use a separate document titled "Revision Notes" when emailing your revision. Should you disagree with any part of the reviews, please explain why.

When submitting your revised paper, please ensure that you upload the source files (e.g. Word). If your revised submission does not include the source files, we will contact you to request them.

Thank you for submitting your work to this journal. Please feel free to contact me with any questions.

Sincerely,
Anarmaa Sharkhuu

MC2021-PowerPoint-Slide-size-instruction

From: Anarmaa Sharkhuu (anarmaa.sh@qmc.mn)

To: anarmaa.sh@qmc.mn

Date: Saturday, 24 July 2021 at 03:15 GMT+7

Dear Author of MC2021,

Greetings to you.

This e-mail is an instruction on how to set your PowerPoint slide size to 16:9 or 4:3, which is a recommended format.

Oftentimes, PowerPoint slides are in 16:9 or 4:3 sizes by default but in the case of customized slide size, please follow the steps from the picture attached.

Step 1: Click on the "Design" section of the navigation bar.

Step 2: On the top right, you will find "Slide size".

Step 3: From the dropdown menu of "Slide size", choose either one of 16:9 or 4:3 format.

Sincerely,

Anarmaa. SH

Instruction for presentation, FAQ about the event & copyright form

From: anarmaa.sh@qmc.mn

To: anarmaa.sh@qmc.mn

Date: Wednesday, 28 July 2021 at 18:43 GMT+7

Dear Authors:

The conference is coming up quickly now, and it is time to prepare and send your recorded presentation! The event will be live using Airmeet platform (<https://www.airmeet.com/>) where you can listen to fellow presenters, visit online booths and exhibitors' showcases, visit social lounges, connect peers via talking or messaging. A few days before the event starts, you will receive an email from the **event platform, Airmeet**, with one-click access details and next steps. Once you register, you can able to setup your profile at the Airmeet platform and get familiar with the platform before the live event begins. The conference will start with the opening plenary, followed by the first live session "Who decides? ©" workshop closing remark, live session discussions featuring panelists as well as live coffee breaks and other networking opportunities.

We encourage each presenter will be live and be online during the time slot scheduled at the program. Your presentation should be **15 minutes (minimum) to 20 minutes** (maximum) in length. Please note that the Q&A session is included in your time slot.

Nevertheless, we are also asking you **record your presentation video beforehand using any recording device** (computer webcam, smartphone, or consumer or professional camera, etc.) and send us via your preferred file sharing platform (Dropbox, Google Drive, Box.com, or FileTransfer, etc.). So, we can use advantages of the studio and platform fully and transfer your talk with high-quality.

We are sharing with you instructions for preparing your recording, as well as a template for your PowerPoint slides.

Also, could you please sign the attached copyright form and send us back?

We apologize for the short notice. **The due date for your recording is 6 August.** We are operating with smaller staff to do so in the few weeks before the conference. We appreciate your help.

If you have any questions about the instructions or what is needed, please do not hesitate to ask.

We look forward to seeing your presentation!

Best regards,
Anarmaa Sh.

From: anarmaa.sh@qmc.mn

To: eddy_nurtjahya@yahoo.com

Date: Friday, 6 August 2021 at 18:12 GMT+7

Dear Dr. Eddy Nurtjahya

Your paper will be published in the Proceedings of Mine Closure. And, the proceeding is being indexed with Scopus. Hence, your paper will be considered as a paper at indexed proceedings.

The indexed proceeding is not common in some fields, but it is more common in computer programming, mathematics, etc. In my understanding, the proceeding may have a higher IF than a journal on that particular field.

Best regards,
Anarmaa

Date: Monday, 9 August 2021 at 22:22 GMT+7

Dear Eddy Nurtjahya,

Greetings from Mine Closure 2021 event QMC support team.

I am sending this e-mail to remind you that Mine Closure 2021 event is due in 7 days. I also wanted to share the video that might help you start with the video recording and presentation. Here is a link to the video (<https://vimeo.com/577584642>) on how to make a video recording of the presentation.

Would you please send us the following two files before the date of 12th August 2021?

- Power point presentation (PPT)
- Full HD video recording of the presenter (MP4)

Please feel free to contact me or any of our support team member for inquires.

whats app link <https://msngr.com/bgnpfhunryjf>

Kind Regards,

Re: Mine Closure 2021 event presentation (one file & one link)

From: Zolboo G (zolboo.g@qmc.mn)

To: eddy_nurtjahya@yahoo.com

Date: Wednesday, 11 August 2021 at 20:07 GMT+7

Dear Eddy,

We just want the video on your power point file as separate video MP4 (MPEG-4) file.

So basically If you could take your phone back camera and record your self in portrait mode presenting.

Our production team will then use that video and combine your slides.

For example presentation format <https://vimeo.com/585290443>

Let me know if you need further information or you could reach me on whats app on my mobile phone number.

Dear Dr. Ganbaatar,

Thank you for your explanation.

I am sorry for not sending the correct form.

I am trying to fix it.

This morning I could not get through the link you send it to me.

I show you the screenshot of the link.

Do you have other way to give the example of the correct recording?

Meanwhile, I will browse the Mine Closure website. Hopefully I will find it.

Best regards,
Eddy

Hi Eddy,

Thank you for sending in your presentation.

However as we have mentioned earlier, we are setting up a small Livestream studio dedicated to broadcasting speeches, producing a high-quality Livestream, and managing multiple feeds to enable participants to connect more, experience the quality, and deliver clear presentations. For the studio to deliver a high-quality stream, a video recording of you delivering your presentation and your PPT files are required. Hence, we kindly ask you to re-record your presentation (see attachment and example below format, dress code professional, separate personal portrait mode video recorded in HD) and send us an MP4 (MPEG-4) file.

As an example refer to image below and attachment. Our production team will add in the ppt presentation next to your recording. Please check this example presentation <https://vimeo.com/585290443>

Please feel free to contact me or any of our support team member for assistance.

Regards,

Zolboo Ganbaatar
