Plant Breeding and Biotechnology

- **Manuscript ID** : PBB-22-1034
- **Manuscript Type** : Research Article
- **Manuscript Title** : Heritability, Coheritability, and Path Analysis of the Contribution of Agronomic Traits to Yield on Upland Rice (*Oryza sativa* L.)

Dear Miss. Dewi Nawank Sary:

Your manuscript has been carefully evaluated by reviewers in your area of interest. The manuscript was recommended to major revision for publication in the *Plant Breeding and Biotechnology*. The reviewers' suggestions and comments can be found at the 'Status of my manuscript' at the PBB online submission website (<https://www.plantbreedbio.org>). The reviewers have made several suggestions to refine the manuscript. Please make changes according to the suggested comments and upload the revised version to PBB website.

If you do not upload the revised version within 60days, your submission will be rejected without notice. If additional time is required, you must contact the PBB editorial office as soon as possible.

Thank you for your cooperation.

Sincerely,

* English editing: English editing should be completed before submission. If it is not still done yet, please make it polished to perfection and ready for submission.

Editorial Comment

<p>Recommendation</p>	<p>Minor Revision</p> <p>• Reviewer A :</p> <p>Authors represented the results of heritability, coheritability, and path analysis of upland rice. Authors conducted experiment well and analyzed their results well. This manuscript can be published in PBB after minor revision.</p> <p>1. Even though, author have 10 different genotype of upland rice, All of the analysis in this manuscript is conducted with phenotype data thus there is no analysis on genotype. Through the entire manuscript authors represented the relationship among genotype and phenotype. It does not make sense. -- especially in the correlation analysis, authors said that " the genotype and phenotype correlation". It should be replaced like " correlation among phenotype...)</p> <p>2. The subtitle in the results and discussion were just one word such as heritability. Please make them as simple phrase</p>
<p>Comments to the Author</p>	<p>• Reviewer B :</p> <p>This MS contains various genetic analyses of the agronomic traits of upland rice. The analyses and results contain valuable information for rice breeders and geneticists.</p> <p>1. The title is just a list of the name of the analysis. Please revise the title to represent your work.</p> <p>2. With a supplementary table, provide more detailed information on the upland rice used in this study for example origin or source</p> <p>3. There is no analysis among genotypes. This manuscript is for only the analysis of phenotypes. Thus any mention of genotype difference should be removed from the entire manuscript.</p> <p>4. In table 1, What are the criteria?</p>

Plant Breeding and Biotechnology

- **Manuscript ID** : PBB-22-1034
- **Manuscript Type** : Research Article
- **Manuscript Title** : Estimation of Heritability and Association Analysis of Agronomic Traits Contributing to Yield on Upland Rice (*Oryza sativa* L.)

Dear Miss. Dewi Nawank Sary:

We are very pleased to inform you that the article, "Estimation of Heritability and Association Analysis of Agronomic Traits Contributing to Yield on Upland Rice (*Oryza sativa* L.)", has been accepted for publication to Plant Breeding and Biotechnology. To finalize the publication procedure of the accepted manuscript, please take the following steps to prepare a ZIP file to upload :

Step 1: Please make final corrections through the manuscript according to the reviewers' comments.

Step 2: Make sure that all tables with its legend, and figure legends are placed after "References" in the final manuscript.

Step 3: Each "Figure" should be saved as a single image file in jpg, gif, or tiff format over 300 dpi or 3 million pixels. File name should also be as same as figure name, e.g, image file for "Figure 1" should be "Figure1.jpg"

Step 4: Combine the final revision and all figure image files from above steps into a single ZIP file and name it as your manuscript submission number (PBB-xx-xxxx.zip).

Once the file is ready, please log on to the Author Center and upload the ZIP file at "submissions with a Decision" under "Decision" menu.

Plant Breeding and Biotechnology sincerely appreciates your contribution to the journal. We also look forward to your continued support and contribution.

Thank you.

Regards.

Dear **Budi Waluyo**,

We are MEDrang, Inc., the publishing company of **Plant Breeding and Biotechnology**.
First of all, we appreciate you for submitting your paper to Plant Breeding and Biotechnology.

We are sending the page proofs of your paper, (2 Questions.) Please read, correct and feed your overall idea back to MEDrang office by e-mail.
If there is any modification in the supplement, please correct it directly in the word file and send it to me.

Please read carefully the entire manuscript and be sure that no changes in meaning have been occurred due to copy editing. Please answer carefully all of the manuscript editor's

Dear MEDrang, Inc.,
 We have responded to 2 questions:
 1. The corresponding author of the manuscript is **Budi Waluyo**.
 2. Phone number +62-81334109215, Fax number +62-341-560011.

We have also read the manuscript carefully, and there are some corrections, namely:
 a. Writing the scientific name on the title and references in italics
 b. There is the addition of 1 reference
 c. There is a letter that must be changed in the formula, written 9 replaced with the letter g
 All changes to the pdf file are marked in yellow and in note or comment on the pdf script.

Therefore, I attach the following 2 manuscript files:
 1. PDF file: which has been corrected and responds through highlights and notes on the script
 2. Word file: which We have revised

Thank you,
Budi
